A:

28.

What type of plane is Lachie flying in?

A:

29.

What is the safety feature unique to the type of plane Lachie is flying in?

A:

30.

The answer to this question is not on the website. You might get hints from the website but need to write your own ideas.

(Lachie had to plan every detail of his flight including: Finding people to support him, finding out what fuel to use, working out how to raise enough money, finding the best time to travel in the different countries, many details about airports and flight paths etc. and much more.)

Imagine you wanted to make a cycle trip around Australia to carry a message about needy people, make a list of all the things you would have to think about and plan before you left. (If you need more space you may add an extra piece of paper).

Well done! Now you can send your entry to the address on the first page.
